Manual Testing, Regression Testing, Smoke & Sanity Testing, Functional & Integration Testing, Cross-browser & Cross-platform Testing, Test Case Design & Execution, Defect Tracking & Reporting, Test Documentation

Automation & Performance

Cypress (JavaScript), Selenium (Java), JMeter, Locust (basic), Appium (basic)

API & Backend

REST API Testing, Postman, MySQL, MongoDB, Redis (basic understanding)

Programming & Scripting

Java, JavaScript, Python, HTML, CSS

Tools & Workflow

Jira, ClickUp, Git, Agile/Scrum

Analytics Validation

Google Analytics, Google Tag Manager, Google Clarity, Facebook Pixel, Ad Manager, Event Manager

PROFESSIONAL EXPERIENCE

Software Quality Assurance Engineer

BD Funnel Builder | Dec 2023 – Present

- Planned and executed manual and automation test cases for SaaS, LMS, and web applications.
- Performed API testing using Postman and performance testing using JMeter.
- Conducted regression, functional, smoke, and cross-browser testing prior to releases.
- Logged and tracked defects in ClickUp, coordinating closely with developers for resolution.
- Prepared QA documentation including BRD, test plans, test reports, and release notes.
- Validated analytics and tracking tools to ensure accurate user data collection.

Associate – Data Processing

Quantanite Bangladesh | Feb 2022 – Dec 2023

- Processed and validated large volumes of client data with high accuracy.
- Ensured data quality, consistency, and timely delivery following internal standards.
- Built strong attention to detail and process discipline applicable to QA work.

PROJECT HIGHLIGHTS

BD Funnel Builder (SaaS Platform)

End-to-end testing of an all-in-one business and website-building platform.

<https://www.bdfunnelbuilder.com>

Digital Uddokta Pathshala (LMS)

Tested course management, enrollment, assessments, and progress tracking.

<https://www.digitaluddoktapathshala.com>

Accounting Lovers (LMS)

QA support for a large-scale e-learning platform for HSC and university admission students.

<https://www.accountinglovers.com>

Meeting Nest (Scheduling Platform)

Tested meeting scheduling, user management, and team activity tracking features.

<https://meetingnest.app/>

Cashkeeper (Money Management Platform - Ongoing Project)

A smart personal finance app that helps you easily track your income, expenses, and budgets in one place for better money management.
